WORK EXPERIENCE

Web Developer (Contractor)

Atlas Digital Marketing Studio / Jun 2023 - Present

- Develop, manage, and optimize Webflow sites, focusing on cross-device responsiveness, content integrations, and performance reliability.
- Implement comprehensive SEO best practices to enhance site ranking and overall online visibility.
- Collaborate closely with designers and marketing teams to align visual design with technical performance goals.

Full-stack Developer

Chicago Face Database Internship / June 2024 - Aug 2024

- Built a data-driven MERN stack (Node.js, React, Express, MongoDB) research web app, featuring an intuitive front-end designed for data visualization and user interaction.
- Developed a secure back-end REST API to streamline data retrieval, manage database operations, and handle JSON data exchanges.
- Automated data workflows to significantly improve research efficiency for the Chicago Face Database team.

PROJECTS

Front-end & UI/UX Lead

ASLingo (Hackathon) / Feb 2026

- Led UI/UX design and collaborated on front-end development for an interactive American Sign Language learning application.
- Designed engaging visual layouts and implemented user-facing features, prioritizing intuitive usability and cross-device responsiveness.

Front-end & UI/UX Lead

ClubConnect / Oct 2025

- Collaborated in a 5-person team to build a secure, full-stack club management platform using Next.js, TypeScript, Supabase, Tailwind CSS, and the Discord API.
- Led UI/UX design and implemented Google OAuth with role-based access to create an accessible, engaging interface for student interaction.

Front-end & UI/UX

SS12 Code for A Cause (Hackathon) / Feb 2025

- Collaborated in a hackathon to design a mobile to-do app for individuals with ADHD.
- Focused on UI/UX design and front-end development for intuitive usability.
- Delivered a fully functional prototype within 48 hours using a full-stack approach.
